

**PLATFORM FOR ONLINE
INTEROPERABILITY AND
PERFORMANCE TEST**

SORT: 6TiSCH Online Remote interoperability Tests

Category D – Plugtest event

Project details

- **SORT**

- **LIST, ETSI, INRIA**

- **Start Date: 15/5/2017 - Duration: 7 months**

- **Short Description:** The SORT project aims to organize **two 6TiSCH Interop events**: a first *on-site with the use of online tools*, and a *second fully remote*.

- **Expected impact:**

- promote the adoption of the F-Interop Platform and the online testing tools
- drive Interop communities into a shift from the classical F2F events to remote online interop tests
- Accelerate the current ongoing standardization process of the 6TiSCH technology
- speed up the time to market of 6TiSCH products

Thank you
